Soundboard feedback

I would love to hear your opinion when using the soundboard

Are the colours of the buttons catch your eye when you put your mouse over it? *

	1	2	3	4	5	
Yes, This catches my eye	○	◉	○	○	○	The colour's are too dull and boring

If you gave it 4/5 explain why you gave it that score ?

....

Do you think that the colours match up with the Sound. E.g. evil laugh being red or Someone laughing being yellow *

◉ Yeah

○ No

Could anyone use this software? *

◉ Yes

○ No

Would you like to import your own sounds into the soundboard instead of using pre-downloaded one's in the soundboard files *

◉ Yes

○ No

If the answer was no, why do you think that sounds in the soundboards

are okay to use without changing them.

Do you think there should be key command to active the buttons? *

○ Yes

◉ No

Is the Answer was Yes what key commands would you like to activate the sounds on the soundboard?

Did the on screen help, helped you on using this soundboard

○ Yes

◉ No

If you clicked on yes please explain why it helped you

But if you clicked on no please explain why the on-screen help didn't help you at all

Straight forward design, simply pressing each of the buttons but it would help those who are unfamiliar

Feedback *

Overall very good,

Suggest any improvements for this Software *

Lightening the colours on a couple of the buttons so the black text stands out a bit more
